interactive displays

Mini OPS 13th Series

mod. OPS513500H-WP11

EXTRAORDINARY

Power

The driving force behind your interactive collaboration

Enhance your workspace performance with the new **13th Generation Mini OPS**. Designed to integrate seamlessly into **DabliuTouch interactive displays**, this module combines the power of **Intel® Core™ i5 Raptor Lake** processors within an ultra-compact design.

Extraordinary Smoothness

Thanks to integrated LPDDR5 3600 MHz memory and Intel® Iris® Xe Graphics, every application runs smoothly and efficiently, making it ideal for intensive multitasking.

Total Connectivity

Equipped with a versatile Type-C port, 5 USB 3.0 ports for ultra-fast data transfer, and dual Wi-Fi antennas for outstanding network stability.

4K Visual Experience

Supports crystal-clear 4K/60Hz resolution, with the flexibility to manage dual displays (synchronous or asynchronous) through dual HDMI ports.

Security & Reliability

Advanced data protection with TPM 2.0 support and maximum peace of mind thanks to one-button BIOS OS recovery functionality.

The future is INTEGRATED

Unlock the power of 13th Generation performance inside your DabliuTouch interactive display

Technical Specifications

GPU	Intel® Iris® Xe Graphics
Display	2x HDMI Sync & Async Dual Display
LAN	1x Realtek RTL8111H 10/100/1000M Ethernet
Wi-Fi	1x M.2 2230 for Wi-Fi + Bluetooth
Audio	Realtek ALC897 HD Audio 5.1 Channel
Front I/O	2x HDMI 2.0 (4K/60Hz), 1x Type-C (USB 3.0 + Video), 5x USB 3.0, 1x USB 2.0, 1x RJ45, 1x Power, 1x Restore, 1x Line Out, 1x Mic In
Rear I/O	1x JAE 80PIN: HDMI 2.0 Out (4K/60Hz)
Power - Input	19V / 4.7A
Packing Dimensions	11.30 × 10.12 × 3.11 inches
Device Dimensions	4.65 × 7.09 × 1.18 inches
Weight (lbs)	Net weight ≈ 1.76 lbs Gross weight ≈ 2.20 lbs
Working temperature	32°F ~ 113°F
Storage temperature	40°F ~ 176°F
Working humidity	10% – 95% @104°F, non-condensing
Supported OS	Windows 10/11, Linux
